

**Your satisfaction is solvega's priority.**

# Our story

Solvega was created as a direct response to the diverse needs of our customers, we are committed, we provide good quality, we have experience, we respect confidentiality and we offer security. We are the union of a large organization, with many years of experience in the production process, customer service and a supply chain. **Solvega has over 30 years experience** in the development and cultivation of a wide variety of food products, particularly the second generation of farming agriculture that now remain at the forefront.

En Solvega we rely on a team of professionals dedicated to the cultivation, from choosing seeds for the customer, product delivery, as well as fulfilling the highest expectations of quality and warranty.

Our warehouse is fully equipped to manage delicate products, such as all the different types of lettuces that we work with. The cold storage consists of water sprinklers, fast "preenfriamiento" freeze and the products are vacuum-packed. In addition our company is certified by BRC, IFS and QS.

# Why should you choose Solvega?

1) We have the best professionals to ensure the high quality products from Solvega so that we can manage the process of the seeds, until the product becomes available to our customers.

2) We have over 600 hectares of land with the possibility of cultivating all through the year, ensuring improved product quality, therefore we have farms in warm climates and in various altitudes.

3) We have the most outstanding technicians to investigate, **test and develop both new varieties of Solvega's most popular merchandise**, as well as our new products that meet the needs of our customers. Furthermore, we are in constant collaboration with several multi-national seed manufactures.

4) Our farms are certified with Global Gap Protocol therefore, ensuring that all our products have been grown and harvested with absolute guarantee of security and control.

5) We have the **best facilities** to ensure that our merchandise remains chilled and the food retains all its properties and freshness.

6) We know what our cooperatives need and we **offer personalized attention** at all times.

*Quality without boundaries*

## LOGISTICS

We have a professional logistics service that allows us to deliver the product on time to each client.

# Commitment quality experience eco-friendly

To meet the needs of our clients we work on our own production with our cooperatives, hence we have cultivated over 1,000 hectares. We form a unique team with the same goals and a passion for agriculture using the up most dedication and consideration.

## SUPERVISION OF THE CULTIVATED LAND PRODUCTION

In **Solvega** the main objective is to ensure its customers a fresh product of the highest quality. Therefore, we take care of the **supervision of the cultivated land production** to ensure the highest level of food products. We perform **tests and investigations periodically** to ensure that after the harvest process, the entire crop meets the requirements of the international standards and that the products have all of their nutritional qualities. We guarantee that our foods are healthy with all its richness in vitamins and minerals and this means that we can conduct a careful process to deliver our products to its destination.
